+92-300-7967851

## SKILLS

**Frontend Technologies** | HTML5, CSS3, JavaScript (ES6+)

**Frameworks and Libraries** | React, Vue.js

**CSS Preprocessors and Frameworks** | SASS, SCSS, Bootstrap, Tailwind CSS

## EXPERIENCE

### • Trigono Technologies

(Dec 2023 --- onward)

As a Senior Frontend Developer at Trigono Technology(<https://trigonotech.com/>), I led a team to develop high-performance, responsive web applications using React and Vue.js, optimizing load times by 30%. I migrated legacy codebases, integrated third-party APIs, and ensured best coding practices. I also mentored junior developers, conducted code reviews, and helped create a standardized component library, improving project efficiency and code quality.

### • Aasan Hai

(Feb 2022 --- July 2023)

I started my career in Aassan Hai (which is a Digital agency) as a Frontend Web Developer, by creating responsive templates using HTML, CSS, JavaScript, and React. With 18 months of experience, I specialized in visually appealing and user-friendly designs. I gained expertise in constructing dynamic interfaces and sought client feedback to meet their needs and expectations.

## PROJECTS

- Lawadvisor (Lawyer Consultation)
